

## We Believe That...

Each child is an individual and special. We are vitally interested in the development of the whole child.

Our school helps students maximize their potential so that they can interact successfully, productively, and happily with society.

Our school has the responsibility to make learning worthwhile and stimulating.

Students, parents, and staff operate with mutual respect and courtesy.

Our enriched curriculum is designed to surpass established standards by the educational and general community. The curriculum is designed to include those items which reflect student interests, needs and "self" in today's society.
